BENEFITS

Invoicing

Keep your cash flow healthy by sending online invoices with online payment options.

Bank connections

Keep track of the money in and out with daily updates from your bank* and simple reconciliation.

Manage GST online

Easily manage GST F5 returns and IAFs using IRAS-compliant software, and file your returns directly from Xero to IRAS.

Purchase orders

Simplify your purchasing process and easily keep track of orders

Multi-currency

Automatically track gains and losses across multiple currencies.

Fixed assets

Discover a way to better manage your business's fixed assets.

HUBDOC

Hubdoc helps businesses save time on manual bookkeeping tasks, bank reconciliation and financial document management. With automated data entry, business owners can focus on things that matter more and growing their business.

Make better decisions

With an accurate, near real-time view of your finances, you're in control and can make more informed business decisions.

Go paperless

All your bills and receipts are securely stored in the cloud; searchable and easy to access from anywhere in the world.

Get more done in less time

An efficient bookkeeping process will free up time to work on your business (instead of in it).

Easy bill and receipt capture

Hubdoc makes it easy to capture bills and receipts using any device including your mobile, email or scanner. Once uploaded, information is automatically extracted and ready to publish to Xero with original documents attached.

Fast, reliable data with Xero integration

With industry-leading technologies, auto-extract key data from your financial documents and sync to Xero as accurately coded transactions – giving you more time to analyse data rather than manually entering it.

Seamlessly match transactions to your bank feed

Bills and receipts show up in Xero as accurately categorised transactions that are easy to match with your bank feed for an up-to-date view of your financials.

MEET JACK

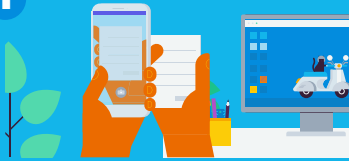

Jack runs a cafe.
He often finds himself struggling to keep up
with back office administration.

What if we introduced Jack to Hubdoc?

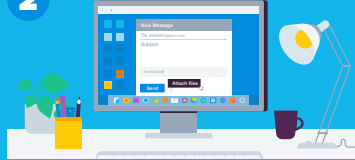

Hubdoc and Xero make document collection, data entry and
bank reconciliation easy for small business owners.
Giving you accurate, near real-time data

1

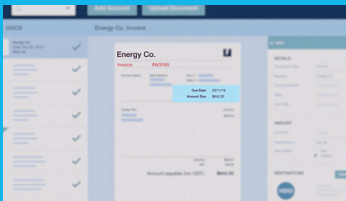

Jack can quickly upload bills and receipts using his mobile device when he's on the go.

2

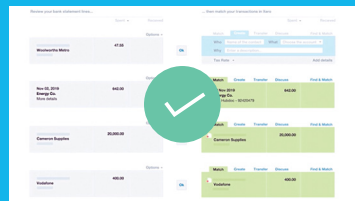

He can also upload via desktop or email

3

Once documents are uploaded to Hubdoc, the key data is extracted and sent to Xero.

4

Hubdoc transactions are automatically matched with bank feed transactions for one click reconciliation

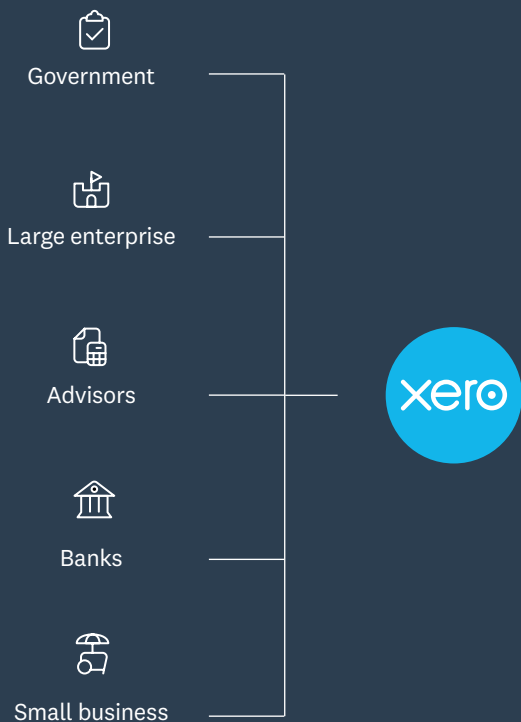

5

Jack now has an efficient bookkeeping process, which has freed up time to work on his business, not in it.
