

Takeaway guide

Xero Asia Roadshow 2023 is all about helping your practice become smarter, faster, stronger together.

We hope you had the chance to reconnect with your peers and the Xero team. We've selected the top resources from each Roadshow session to help you with next steps.

State of the industry

Released at Roadshow, the State of the industry report offers a snapshot of Singapore's accounting and bookkeeping world. By exploring key themes and challenges – from digitalisation and service offerings to economic uncertainty and offshore teams – the research provides insights to help you identify growth opportunities in 2024 (and beyond). Download the [report](#) to learn more.

Xero Spotlight

- To learn more about AI and its place within the accounting industry, download our [Future Focus AI guide](#).
- eInvoicing is the smart, fast and secure way to receive invoices. For information on how to register to receive eInvoices in Xero, check out [Xero Central](#).
- Our [Money Matters report](#) highlights the impact of economic conditions on the cash flow of Singapore small businesses, as well as tips & tricks on how to manage cash flow more effectively.
- The GST rate in Singapore will increase from 8 to 9 percent on the 1st of January 2024. Register for our [Preparing for Singapore's GST rate change](#) webinar to learn the essential steps to prepare your Xero data and ensure compliance.

Mastering your reporting & insights in Xero

- Explore further how Xero's [reconciliation report pack](#) and [Analytics Plus](#) tools can speed up tasks, complete data health checks and unlock meaningful insights for your clients.
- Learn more about how apps can create new opportunities; such as Syft Analytics, Spotlight Reporting, Bluesheets and Peakflo via our [Xero app store](#).

Additional resources

- To continue your learning, November is Education Month, filled with free educational webinars, videos and resources for you and your clients. Head over to [Xero central](#), to see what's available.
