Your security, Our priority

At Planday, we understand that **data security is crucial to your business.** Whether you're managing staff, communicating with teams, or generating reports, you can trust Planday to keep your data safe while providing a smarter, more efficient workforce management solution.

We are committed to upholding **industry-leading security standards** and continuously improving our systems to protect your information.

Industry-Leading Security Certifications

We are audited every year for the following best-in-industry security accreditations, ensuring we are up to date with the latest **compliance standards, industry best practices, and evolving cybersecurity threats to protect your data effectively.**

ISO 27001 Certified: The Gold Standard in Security

Planday has been **ISO 27001 certified since 2018,** making us one of the frontrunners in secure workforce management. This internationally recognised security standard ensures

✔ Your data is managed with **robust security controls**

✔ We continuously **enhance and monitor** our security framework

✔ Compliance with the **latest ISO 27001:2022 standards** through **EY Certify Point** (as of 2023)

Our ongoing commitment means your **business-critical data is always protected.**

SOC 2 | ISAE 3000: Independent Validation of Security Excellence

Planday meets the highest security and compliance standards with ISAE 3000 | SOC 2 | Type II certification. [The certification can be seen here]. This certification means

- Our security systems are independently audited and validated.
- We meet the Trust Services Criteria for data confidentiality, integrity, availability, and privacy.
- Our processes are regularly tested to ensure operational effectiveness.

This reinforces our commitment to transparency and trust in managing your sensitive data.

Cyber Essentials: UK Government-Backed Protection

As a Cyber Essentials certified company, Planday adheres to stringent UK government-backed security measures to protect against cyber threats. This certification ensures

- ✔ Rigorous protection against cyber risks
- ✔ Continuous monitoring and improvement of our security framework
- ✔ Peace of mind knowing your business data is safeguarded

Our Commitment to Ongoing Security

Data security is not a one-time effort—it's a **continuous priority**. Planday invests in

- **Regular security audits** to maintain compliance
- **Advanced encryption and access controls** to prevent unauthorised access
- **Ongoing employee training** to uphold best security practices

With Planday, you're not just choosing a workforce management solution—you're choosing a trusted security partner.
